

January 18, 2026

Dear SIFPD BOD,

Thank you for your time and consideration regarding my November 2025 presentation about Cal Fire's billing practices for rural area hotel inspections. I appreciate the opportunity to bring these concerns forward in a public setting and to have them entered into the Board's record.

I also want to formally acknowledge and thank you for providing a follow-up letter to Cal Fire mailed on December 19, 2025. Your willingness to respond—on behalf of rural property owners and small operators who are directly impacted—demonstrates a commitment to our growing business community, above and beyond saving lives and property!

Please accept this email as my official expression of appreciation, submitted for the record. I remain available if the Board wishes to revisit the issue with additional documentation, clearer questions for Cal Fire's written justification and billing basis for these inspections.

As always, with respect and gratitude,

Cynthia
